	INTEGRATED MANAGEMENT SYSTEM POLICY		Version No. 01
			Page 1 of 1
Prepared by: Jan Nowikow		Approved by: Jan Nowikow	
Date: 2026-06-30		Date: 2026-06-30	

Scope: “Management and monitoring of post-consumer textile flows for reuse and recycling.”

Novikon Group OÜ is committed to ensuring reliable, transparent and traceable management of post-consumer textile flows, compliance with applicable customer, legal and other requirements, and responsible use of resources throughout its activities and externally provided processes.

Novikon Group OÜ is committed to:

- meeting applicable requirements and continually improving the effectiveness of the Integrated Management System;
- ensuring the quality, reliability and traceability of post-consumer textile flows;
- monitoring and controlling suppliers, carriers, sorting companies and other external partners involved in our activities;
- fulfilling applicable environmental compliance obligations;
- protecting the environment, including prevention of pollution and supporting the reuse and recycling of textiles;
- promoting efficient use of resources and reducing waste where practicable;
- considering relevant environmental impacts and climate-change-related issues;
- setting and reviewing measurable quality and environmental objectives;
- ensuring appropriate competence and awareness of persons involved in the management system.

This Policy provides a framework for establishing and reviewing quality and environmental objectives. It is communicated within the organisation, made available to relevant interested parties and reviewed periodically to ensure its continuing suitability.
